

講師 簡介

黃金維 講座教授

國立陽明交通大學

Experience

- Professor, Dept. of Civil Engineering, National Chiao Tung University, 1997.8.1-present.
- Chair Professor (講座教授), National Chiao Tung University, 2009.8.1-present.
- Adjunct Professor, Institute of Hydrological and Oceanic Sciences, National Central University, 2007.8.1-present.
- Adjunct Research Fellow, Institute of Earth Science, Academia Sinica, Taiwan, 2012.1.1-present.

Major fields of research

- Satellite Geodesy, Gravimetry, Earth Sciences, Oceanography

Personal profile

Fields of research include satellite Geodesy, gravimetry, earth Sciences, satellite oceanography. Current research activities are detections of surface deformations by InSAR, GPS, multilayer aquifer-system compactions for a sustainable groundwater-system development.
